Jun 11 - Speaker Meeting

Verification and Validation Across the System Lifecycle

The concepts associated with the terms verification and validation are distinctly different depending on the context. Each term is often misunderstood and the terms are often used interchangeably without making clear the context in which they are used. To avoid this ambiguity, each of these terms should be preceded by a modifier which clearly denotes the proper intended context in which the term is being used; verification or validation of the needs, requirements, design, or the realized system. During this presentation, Lou will provide a brief overview of the Requirements WG. He will then walk attendees through the lifecycle of a system from the context of which the terms verification and validation are used.

Jul 09 - Chapter Speaker Meeting

Details coming soon!

Please save the date for our upcoming July Speaker Meeting. We hope you can join us either in person at The Aerospace Corporation, or virtually via Zoom. Be on the lookout for an official invite from us, coming soon to an inbox near you.

Call for Volunteers

Successful organizations such as ours owe their success to the helping hands of our volunteers who take time away from their daily engagements and contribute to INCOSE LA. We are eternally thankful and commend them for their dedication.

Here's a sample of the events we have coming up:
- Western States Regional Conference (WSRC)
- Annual Mars Rover Expo
- Joint Chapter Mini-Conference

If you're interested in volunteering and supporting the chapter, please don't hesitate to reach out to volunteer@incose-la.org. More details coming soon!
