

Upcoming INCOSE-LA Events

To register, visit Chapter Events at <http://incose-la.org>

Tuesday, 11 June 2024 Speaker Meeting
Verification and Validation Across the System Lifecycle
Lou Wheatcraft, Wheatland Consulting, LLC
Chair, INCOSE Requirements Working Group

Tuesday, 9 July 2024 Speaker Meeting
Systems Engineering Integration with Project Management
Molly Kovaka, PMP
IT Director, INCOSE PM-SE Integration Working Group
(to be confirmed)

Pushing the Boundaries of Autonomous Robotic Exploration of Planetary Bodies

Dr. Issa Nesnas, JPL

- Principal robotics technologist at the Jet Propulsion Laboratory
- Associate director at Caltech's Center for Autonomous Systems and Technologies
- Served as the supervisor for the Robotic Mobility Group, which led the development of the autonomous surface navigation for the Perseverance rover
- Led research in architecting autonomous systems as well as in-space navigation for approaching small bodies
- PhD, Electrical and Mechanical Engineering from the University of Notre Dame
